Yealink

"Frost & Sullivan research confirms that Yealink's leadership position in the IP and SIP desktop phone market is proven by its effective growth strategy, sustainable above-market growth, price/performance value, excellent customer service experience and strong brand equity. Yealink is well positioned to leverage its strength for further success in the enterprise IP desktop phone market."

—*by* Frost and

Sullivan

"In one of the most essential customer satisfaction measurements, called Recommend-To-A-Friend, Yealink beat out every vendor, with 99% of Yealink customers saying they would recommend Yealink to a friend. Not surprisingly, Yealink achieved both Top 10 Leader, and Best-Of- The-Best status in the study."

Yealink|亿联网络

When connecting to T53W,

EXP50 automatically adjust to BnW style

When connecting to T54W/T57W/T58A with camera,

EXP50 remains the original color-screen style

Adjustable Large Display

VS

Spending too much time on adjusting the height of your table and chair, just to find a comfortable view under different lighting condition.

Adjustable from **40 to 90-degree** to meet various lighting conditions and viewing angles.

Bring convenient to your business and protect your eyes.

Built-in Wi-Fi & Bluetooth

Yealink

VS

- Require extra port on IP phone for Wi-Fi/Bluetooth dongle
- Spending extra cost on Wi-Fi/Bluetooth dongle
- Dongles are easily lost

- No cost for extra accessories
- Save a USB port for other use
- More stable than Wi-Fi Dongle
- No worry about dongle missing

Note :T53 does not have built-in Wi-Fi/Bluetooth

Corded-Cordless Phone

Benefit from Yealink DECT technology, the T5W series can work as a DECT base and be connected to multi handsets, offers an all-in-one DECT solution for retail store, warehouse and home offices

- Easy deployment by just plugging the DECT dongle - DD10K in the USB port on the phone

- Cost-saving compare to buying a DECT base

- Keeping your office tidy without massive of cables

- More flexibility without being fixed to the desk and no worries about missing vital calls

- Connection of up to **4 Yealink DECT handsets** and up to 4 parallel calls (up to 8 handsets in future)

Corded-Cordless Phone

Clone Mode (T5W is Master and the handset is Slave): Support seamless call switchover between the desktop phone and the DECT handset (only when one DECT handset is registered)

- Only 1 handset can be registered on the T5W phones as a slave handset, T5W phones act as the master phone
- The slave handset share the calls and contacts with the master phone
- The call can be shifted between the master phone and slave handset

Clone Mode

Acoustic Shield

Call center

Factory

Stock exchange

- Use multiple microphones to create a virtual "shield" between the speaker and the outside sound source
- Intelligently block or mute sounds outside the "shield", enable the person on the other end hears you clearly
- Ideal for busy and noisy workspace like call center and factory
- Dramatically reduce communication frustration and improve productivity

➢ Share contents while calling

➢ No special server required, saving cost

➢ Stable and quick data transmission, speed up decision making

- Use the T5W together with Yealink VC Desktop to share contents from PC. When you establish a call with the far-site, click Content Sharing on Yealink VCD, and the far-site can see the screen content on your computer synchronously.

- Contents are transmitted through the phone, so no special server is required.

Case Study – Yealink & COACH

COACH Requirements

- The cashier needs to stand up and adjust the phone screens to a specific angle

- Staffs need to use the phone while moving around the store

- There is limited space in checkout area for deploying desk phone

- The cashier desk is unable to deploy too many network cables for the phone

- Coach is a high-end brand, they need prime phones to meet their high-end positioning

T3 Classic
Business Phone Series

Facilitate the communication, enrich your business

Yealink

Stronger Performance, More Possibilities

Equipped with powerful chip, the T3 series owns a stronger computing ability and more upgraded functions, which ensures a higher productivity and smoother office experience. Due to great performance, T3 series is capable to extend more services for different business demands.

Superior HD Audio, Better Communication

The Yealink T3 series provides distraction-free communications with industry leading Smart Noise Filtering Technology, which delivers excellent sound quality without extraneous noises and allows fluent conversations.

Yealink|亿联网络

Yealink

Classic Design, Practical Details

Designed by Yealink original team, T3 series inherits the design concept of Yealink IP phone family. The advanced design including modern appearances and ergonomic details enables easier and friendly operation experience to users.
